

INTERNSHIP OPPORTUNITY FOR UG/PG STUDENTS

Organized by
Department of Botany, Madhabdev University
Narayanpur, Lakhimpur, Assam

Objective of the internship:

The internship program is strategically designed to bridge the gap across various disciplines as prescribed by New Education Policy. Focusing on the unique bioresources of North East India, the program aims to cultivate a scientific temperament among undergraduate and post graduate students, encouraging them to move beyond rote learning toward analytical inquiry, sustainable innovation, and income generation.

Internship on

Vermicomposting & Vermiculture

Mushroom Cultivation

Bioresource Management

Eligibility Criteria & Time Line:

Any Undergraduate or Post graduate student of various colleges/universities of the region can choose one course from the three provided choices. The 15 days internship will be tentatively commenced within June 25 - July 10, 2026

Seats will be filled up on "First-come, first-served" basis
